Space Attributes. Dry laboratory space types are designed to accommodate project-specific work patterns and scientific equipment. As such, they tend to include design features that provide reliable working conditions in a somewhat mobile environment.

Laboratory: Dry | WBDG - Whole Building Design Guide

I: Overview. Chapter 1 - Federal Requirements introduces the federal laws, Executive Orders, and regulations applicable to transportation projects. There are links to policy, guidance, directives and advisories pertaining to federal environmental laws, and agreements pertaining to National Environmental Policy Act and Department of Transportation Act Section 4(f) compliance.

Non-motorized travel is much more common in some urban areas than others. Many communities have significant latent demand for non-motorized travel, that is, people would walk and bicycle more frequently if they had suitable facilities and resources (Komanoff and Roelofs, 1993; Pucher, Komanoff, and Schimek, 1999).

Emerging Issues Technology in Academic Laboratories. Few things are more compelling than a public display of learning. Large and small scale events and interactions should be encouraged by a building's easy access to simple technologies, including power and wireless networks - inside, outside, and at the student center and local café.
