

*Law And Public Choice A Critical Introduction By Farber 1991*

### **Law And Public Choice A**

Choice of law is a procedural stage in the litigation of a case involving the conflict of laws when it is necessary to reconcile the differences between the laws of different legal jurisdictions, such as sovereign states, federated states (as in the US), or provinces. The outcome of this process is potentially to require the courts of one jurisdiction to apply the law of a different ...

Conflict of laws - Choice of law: In its choice of the applicable law, the court that exercises jurisdiction determines which law to apply to a case that involves foreign parties, foreign transactions, or a number of foreign elements. In a simple world, the court would always apply its own law, the law of the forum (known in Latin as the *lex fori*).

Public choice theory is a branch of economics that developed from the study of taxation and public spending. It emerged in the fifties and received widespread public attention in 1986, when James Buchanan, one of its two leading architects (the other was his colleague Gordon Tullock), was awarded the Nobel Prize in economics.
