A telescopic sight, commonly called a scope, is an optical sighting device that is based on a refracting telescope. They are equipped with some form of graphic image pattern (a reticle) mounted in an optically appropriate position in their optical system to give an accurate aiming point. Telescopic sights are used with all types of systems that require accurate aiming but are most commonly found ...

Telescopic sight - Wikipedia

The PlaneWave Instruments CDK17 is a 17 inch (0.43 m) f/6.8 Corrected Dall-Kirkham Astrograph telescope. The CDK17 has a dual carbon-fiber truss design, with 3 cooling fans ejecting air from the back of the telescope, and 4 fans blowing across the boundary layer of the mirror's surface.

The PlaneWave Instruments CDK14 is a 14 inch (0.36 m) f/7.2 Corrected Dall-Kirkham Astrograph telescope. The CDK14 covers a 70 mm field of view without any field curvature, off-axis coma, or astigmatism. The CDK14 is a lightweight carbon-fiber truss design weighing less than 50lbs, with 3 cooling fans blowing air throughout the back of the telescope.

Solid aluminum optical breadboards are offered with either a 1 inch grid of 1/4-20 mounting holes and a 0.5 inch border or a 25 mm grid of M6 mounting holes and a 12.5 mm border (M- metric versions).

Solid Aluminum Optical Breadboard Plate - Newport

McPherson spectrometers, monochromators, spectrographs, and optical systems for science applications at commercial, university and federal research laboratories. high quality optical instruments consistently, for all customers. custom designs and standard products. finished per published specifications or tweaked for specific scientific requirements.

Monochromators, spectrometers, optical systems for ...

Optima Precision manufactures high-quality optics, specialized mechanical components, and instruments for use with laser diodes. Optima also supplies laser diodes from the leading manufacturers i.e. Sanyo & Sony.: Offering both aspheric and multi-element lenses, Optima lenses are specifically designed for collimating or focusing laser diodes.

Laser Diodes, Optics, and Related Components - Optima

We make it easy to hold and change your optical filter where you need it with our wide range of filter mounts.

Filter Mounts - Optical Filter Mount - Newport Corporation

Optical test equipment or optical measuring instruments are used to measure and characterize the physical properties of light. The insatiable demand for higher capacity in communication networks has fueled the need for highly precise optical test solutions.

Optical Test Equipment | Yokogawa Test & Measurement ...

The W. M. Keck Observatory is a two-telescope astronomical observatory at an elevation of 4,145 meters (13,600 ft) near the summit of Mauna Kea in the U.S. state of Hawaii. Both telescopes feature 10 m (33 ft) primary mirrors, currently among the largest astronomical telescopes in use.

W. M. Keck Observatory - Wikipedia

Qioptiq's world-renowned LINOS catalog and online Q-Shop store have a wide selection of very high quality lab equipment and accessories for customers operating in scientific research and industry laboratories.

This page describes the optical principles necessary to understand the design and function of telescopes and astronomical eyepieces. Subsequent pages discuss the telescope & eyepiece combined, eyepiece optical aberrations, eyepiece designs and evaluating eyepieces. Included at the end of each page is a list of Further Reading that identifies the sources used to develop the pages and background ...
